Design Data Sheet

1. **Owner's Name:** _____
Address: _____
Phone #: _____

2. **Facility Name:** _____
Address: _____
Account # _____ **Meter#:** _____
Contact Person: _____
Phone #: _____
New Facility: _____ **Existing Facility:** _____ **Rehabilitation:** _____
Property Use/Business Type: _____

3. **Device Data:** _____
Manufacturer: _____ **Model #:** _____ **Size:** _____
Type: RBPB: _____ DCVA: _____ PVB: _____
Hot or Cold Water Unit: _____
Exact Device Location: _____
By-Pass Arrangement: Yes/No
Type of Shut-off Valve: _____ **UL or FM Approved:** _____
From what type of contamination is the Water Supply Protected: _____

4. **Piping Schematics:**

A fully labeled schematic of the water piping surrounding the backflow prevention device showing the following must be included:

- Height above finished floor
- Distance from wall(s)
- Type of equipment/systems/chemicals downstream of back backflow prevention device
- Alignment of Backflow Prevention Device
- Type of equipment after backflow
- Location of Upstream and Downstream shut-off valves

*Please note each backflow prevention device requires a separate design data sheet
